## ***DEDICATION***

We, the students of James Monroe High School, dedicate the 1950 Monroe Echo to Mrs. Kate J. Keckler, who has endeared herself to the hearts of each and every one of us who knew her and loved her. For many years she taught us our math and algebra at James Monroe, and we will always appreciate and be thankful for everything she has done for us. By her warm friendliness, her generosity, and her good naturedness Mrs. Keckler will be remembered by all of us as we pass on through life.

Through the Student Cooperative Association the students of James Monroe High are becoming better acquainted with the opportunities and duties of self-government.

The membership in this organization is limited to no one; every student is a member. Their governing body, the Student Council, is made up of the club Presidents, Homeroom representatives, chairmen of council committees, and the Executive Council—President, Vice-President, Secretary and Treasurer.

Much progress has been made during the past year towards better cooperation among the students, faculty, school, and community.

## ***THESPIAN CLUB***

James Monroe students who show interest and ability in drama and public speaking are further assisted in their talent as they acquire membership in the National Dramatic Society, the Thespian Club.

The local high school chapter was organized several years ago. Seventeen new members were added this year to the high school roll of this club. The requirements for membership are based on a point system.

For those who are planning to enter college drama and public speaking, the membership in the Thespian Society is very beneficial.

Sponsored by the local Kiwanis Club, the James Monroe Key Club helps to mould the future citizens of Fredericksburg.

The Key Club, its membership based on character, achievement, and leadership, assists the outstanding young men of the school in being better leaders, students, and members of society.

## SENIOR BETA CLUB

"Ducamus aliis serviendo" (Let us lead by serving others), is the motto of the National and also the local Beta Club. A non-secret, achievement-service organization for students of State-accredited high schools, this club promotes the ideals of honest, service, and leadership among the students in the Junior and Senior classes.

The J. M. Beta Club holds as its standards for membership, not only a high scholastic average—90, but also a student's character, achievement, and attitude.

If any financial assistance is needed a Beta Club member can always rely on the National Scholarship Fund.

Although the work of the junior club is not dependent upon the Sr. Beta Club, this club does uphold the same principals. Through the work of the Jr. Beta Club, the members are better prepared to enter the Sr. Beta Club.

# INDUSTRIAL ARTS NEWS

The Industrial Arts News, the only paper of its kind in the State of Virginia, was established in February, 1944. It is published on the first day of every month during the school year by the Printing Department of the shop. All the mechanical processes, except the typesetting by Linotype at the Free Lance-Star, are done by the Jayem students.

This publication is "an honest effort to present all aspects of journalistic work; to learn the editorial and mechanical make-up of newspaper, as well as to inform everyone of the happenings in the shops of the Fredericksburg City Schools."

The shades of ancient Rome linger in the halls of J. M. when we find the Latin Club convening every month. Being that the majority of its members are engaged in their regular Latin Class at the fourth period, this is one of the school clubs that meets during school hours. It is interesting to see how this so-called "dead language" is revived by the club members, as they participate in Latin jig-saw puzzles, the study of Roman history, and various Latin translations.

The Latin Club is composed of, not only first and second year Latin students, but also the "honorary members"—those pupils who have completed their two years of the "language that never dies."

## ***FRENCH CLUB***

The French language, customs, life, and people are the topics that we would hear discussed at the meetings of the French club. To become a member of this club, it is required that the student be taking either his first or second year of French, or he may have completed two years. This is one of the oldest organizations in the school.

Here at James Monroe the realms of science are more clearly viewed through the work of the Senior Science Club.

Organized at James Monroe in September, 1945, the Science Club has helped to increase the interest, knowledge, and appreciation of science among the J. M. students. Any high school student, who has taken, or is taking the second year of any science, is welcomed into the Science Club, providing he has ability and interest in science.

## ***JUNIOR SCIENCE CLUB***

In November of the year 1948, the Junior Science Club was organized. Boys and girls in the eighth grade who have had, or are taking science, are eligible for membership.

This club has several aims and purposes, which are: to increase the knowledge of science, to learn to protect the skills in science, to understand the importance of science in everyday life, and to increase the interest of science in the school and community.

The members of the Junior Science Club are usually accepted for entrance into the Sr. Science Club when they become Freshmen.

Yes, the homemakers of tomorrow are being trained today at James Monroe under the leadership of Mrs. Miller, the high school home ec. teacher and F. H. A. club sponsor.

The girls in this club are introduced to the opportunities which courses in home economics offer. Further purposes of this club are to encourage them to continue their education in this field after graduating from high school, to develop leadership and create a desire for participation in our democratic society, and to promote recreation in the home, school and community.

## ***JUNIOR FUTURE HOMEMAKERS OF AMERICA***

To the young girls taking home economics in the 7th and 8th grades, has been given the opportunity to enjoy the benefits of a club similar to the Sr. F. H. A. These girls are trained to be capable, intelligent homemakers for the future. To encourage and promote the dramatic activities of James Monroe High School, this year's Dramatic Club received into its membership all the students interested in drama or public speaking. This means that more underclassmen will have an opportunity to participate in the activities sponsored by the club. It is the purpose of the club to interest more young people in the work of the theater and the stage.

## ***BUSINESS EDUCATION CLUB***

The Business Education Club, organized to promote interest in the business field, limits its membership to those who show particular skill and interest in the commercial subjects. All the members have taken, or are taking two or more business subjects.

This club enables the young people entering the commercial field to gain skill, confidence, and an understanding of the modern commercial world.

The organization in James Monroe High School that helps to "care for the world," is the Jr. Red Cross, led by their own J. R. C. Council. The work of this organization is a continuing duty—all through the school year. When the annual drive for Red Cross funds is on, our school usually has 100 per cent membership! It is evident that the students of James Monroe do think of others, and are willing to give when the need arises. This spirit is spurred on by the Junior Red Cross Council.
